Professional Profile

- Detail-oriented and highly organized software developer.
- Strong team player with a collaborative approach to projects, effectively communicating ideas and collaborating with team members, as demonstrated in collaborative project work.
- Adaptable to new technologies and methodologies, ensuring quick integration into projects.
- Creative problem solver, able to think outside the box to overcome challenges.
- Customer-focused mindset, committed to understanding and meeting end-user needs**.**

Technical Skills

- **Front End** | HTML5, JavaScript, CSS3, Next.js

- **Back End** | Python, C#, MySQL, Java

- **Developer Tools** | Github, Visual Studio Code, Visual Studio 2022, Figma, Docker

Project

Esmeraldas Coffee Website (Capstone)

An e-commerce website featuring coffee products with user-friendly navigation and brand-centric colours, enhancing the user experience.

- Designed the UI for the website using Figma (low and high fidelity).
- Developed homepage, product page, footer and cart page using Next.js and CSS.
- Collaborated with team members on various pages, such as the nav bar and shop page.
- Created use cases and class diagrams for client presentation.
- Communicated with the client to understand and implement desired features.
- Contributed 80% of the project, including coding, encompassing architectural design, UI design, React.js implementation, and CSS styling across multiple key pages.

Digifit

A Mobile application designed to facilitate the digital integration of clothing items, empowering users to discover and create outfits within the app.

- Produced both low-fidelity and high-fidelity.
- Conducted extensive user research, by conducting surveys and one-on-one interviews with clients.
- Developed a sophisticated storyboard for the user experience that skillfully encapsulates and enhances the user journey, ensuring seamless and engaging interaction.
- Created detailed wireframes using Figma and developed interactive prototypes from these wireframes.

- Developed user-friendly interactive features such as buttons, scroll feature designed for a mobile app.

Experiences

Sobeys Liquor Store *Clerk,*   March 2022 - Present
Assistant Manager: Allen Umali | No.: (403) 383-7346

- Provided outstanding customer satisfaction by understanding their needs and consistently delivering high-quality service in alignment with brand values and standards, demonstrating excellent communication skills.
- Accurately maintained inventory records for a diverse range of over 300 items by conducting prompt and efficient stock counts, swiftly identifying, and resolving discrepancies, showcasing attention to detail and problem-solving abilities.
- Stayed updated on the latest sales offerings and loyalty programs through active engagement, ensuring a comprehensive understanding of current promotions and incentives, reflecting a proactive learning attitude and adaptability.

Tim Hortons *Server,*   November 2019 - February 2021
Manager: Lorena Tolentino | No.: (403) 479-5679

- Took orders and answered questions about the menu items, requiring clear and effective communication skills.
- Served customers in a fast-paced environment, demonstrating the ability to work efficiently under pressure while maintaining high service standards.
- Cleaned workstations and stocked up in the store, highlighting organizational skills and the ability to maintain a structured and efficient workflow.
- Delivered phenomenal customer service to ensure a positive experience, showcasing teamwork and a customer-centric approach, essential for collaborative projects in software development.

Education

Diploma in Interactive Design User Experience   September 2024 - Present
Southern Alberta Institute of Technology

Diploma in Software Development   Awarded 2024
Southern Alberta Institute of Technology

Core Concepts:

- Web development – Acquired skills in HTML, CSS, and JavaScript to build and deploy websites. Gained experience in web application development and leveraged key full-stack technologies, including framework such as Next.js.
- User Experience and Design – Learned the fundamentals of user interface design for software applications, focusing on usability, screen mock-ups, documentation, and prototyping to create successful products for end users.
- Object-Oriented Programming – Covers problem-solving techniques such as reuse, scoping, and abstractions. Introduces object-oriented principles to develop applications in C#, Java, and Python.
- Database Programming – Strengthened database design skills and used SQL effectively for creating databases and generating reports. Achieved advanced proficiency in database-specific languages, integrated SQL into various programming environments, and mastered advanced SQL concepts and code testing.
